

Printing from Gmail's Web Interface

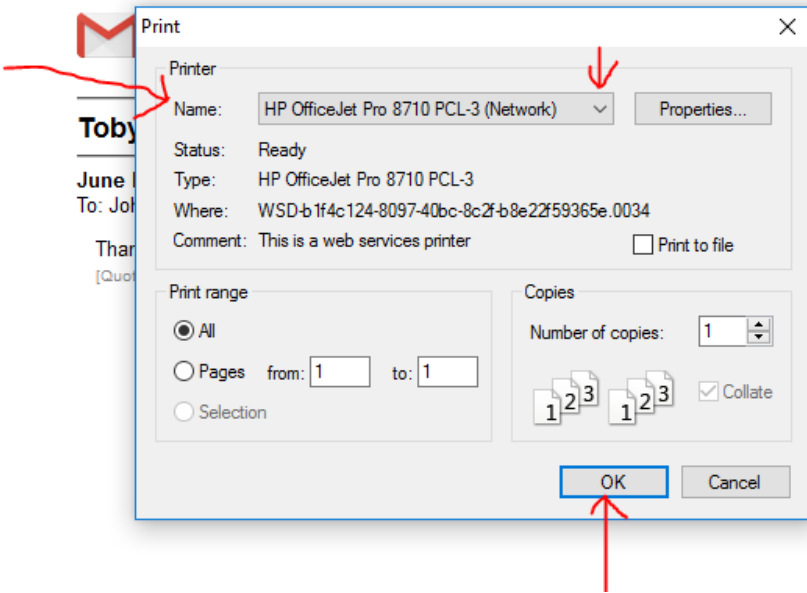

- 1- Open email and click on the small down arrow in the upper right hand corner of the email. See below Red circle.

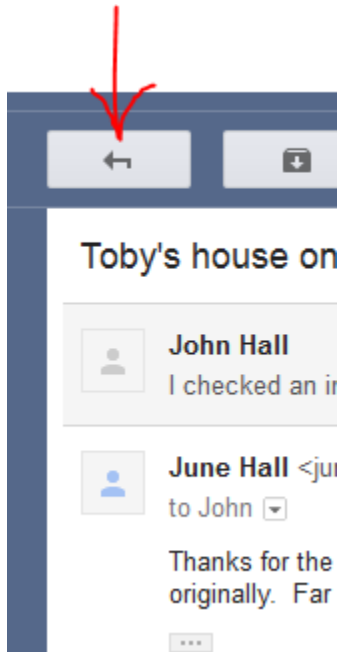

- 2- From the dropdown list choose, Print. See below

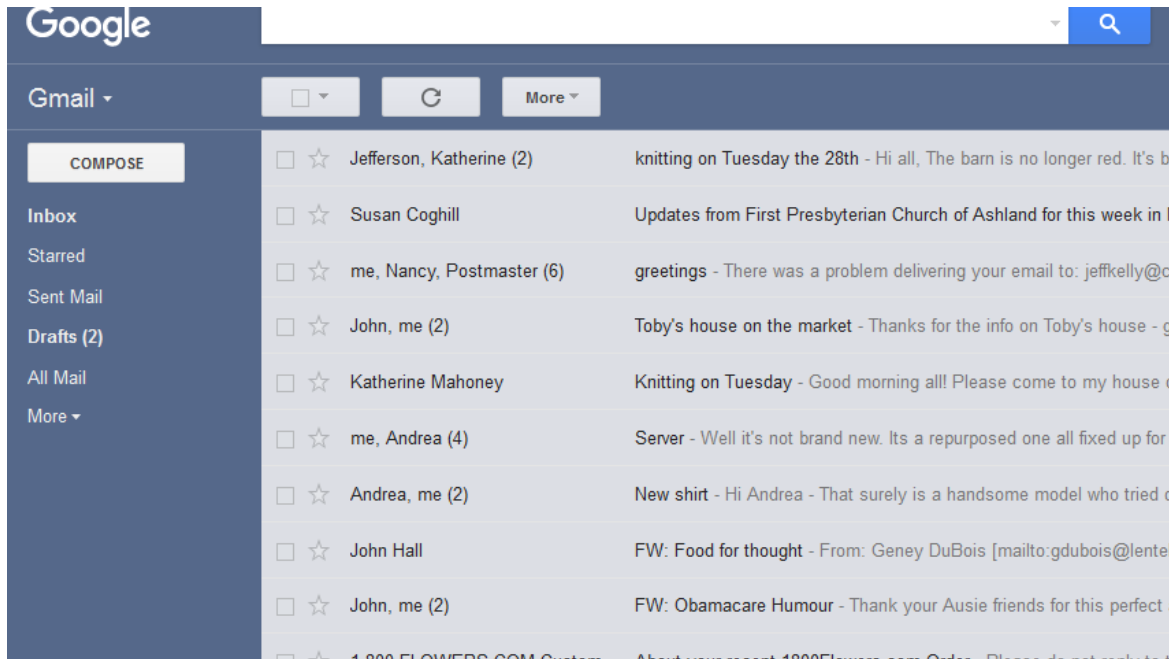

- 3- The 'print email page' will open in a new tab (see below), without all left and right hand menus. A printer window will open with your default printer already chosen, see below. If this is not the printer you want to print to, then click on the down arrow and choose your printer. Check how many copies you want to print, and click OK

- 4- When printing is complete, close the 'print email page' tab, (top red arrow). You will then be back at your opened email page. Go back to your inbox by clicking the 'back' arrow in the upper left corner of the email, (see below).
